-

Academic Qualification

B. Sc Computer Science Periyar

University, Tamil Nadu 2022 — 2025

| CGPA: 7.5/10

Projects

1. Movie Hub Web App | [Live Link](#) | [Github](#)

Tech Stack: React.js, JavaScript, TMDB API, Bootstrap/CSS3

- Built a real-time movie web app using TMDB API to fetch live movie details, ratings, and media content.
- Added smart features like search, genre filtering, detailed movie pages, and a favorites system using Local Storage/State management.
- Designed a fully responsive and user-friendly interface with Bootstrap and custom CSS for smooth experience on all devices.

2. Weather Dashboard | [Live Link](#) | [Github](#) Tech

Stack: HTML5, CSS3, JavaScript, API

- Built a responsive weather dashboard that fetches real-time weather data from a public API.
- Implemented dynamic display of temperature, humidity, wind speed, and weather icons.
- Enabled city search functionality with error handling for invalid inputs.
- Focused on clean UI, reusable CSS, and responsive design for seamless experience across devices.

3. E-commerce Website | [Live Link](#) | [Github](#) Tech

Stack: HTML5, CSS3, JavaScript

- Developed a fully responsive e-commerce website with product listings, search, and dynamic cart functionality.
- Implemented interactive product cards, filtering, and price calculations using JavaScript.
- Designed responsive layouts with CSS Grid and Flexbox for seamless experience across devices.
- Focused on clean, reusable CSS and a professional, user-friendly interface.
