Professional Summary

Self-motivated Frontend Developer with hands-on experience in building **responsive and user-friendly web applications** using **HTML5, CSS3, JavaScript, Bootstrap and React**. Skilled in translating design concepts into functional interfaces with strong attention to detail. Seeking an entry-level opportunity to apply technical expertise, contribute to innovative projects, and grow as a professional Frontend developer.

Technical Skills

- **Languages:** JavaScript, HTML5, CSS3
- **Frameworks and Libraries:** Bootstrap
- **Tools & Platforms:** Git, GitHub, VS Code

Academic Qualification

B. Sc Computer Science
Periyar University, Tamil Nadu
2022 – 2025 | CGPA: 7.5/10

Projects

1. Movie Hub Web App | [Live Link](#) | [Github](#)

Tech Stack: React.js, JavaScript, TMDB API, Bootstrap/CSS3

- Developed a dynamic movie browsing platform integrated with TMDB API to fetch real-time movie data, including ratings, posters, and descriptions.
- Implemented features like search, category filtering, movie detail pages, and a favorites system using local storage/state management.
- Built responsive UI with Bootstrap & custom CSS for seamless interaction across devices.
- Ensured smooth UX with loading states, toast alerts, and optimized API requests for fast performance.

2. Weather Dashboard | [Live Link](#) | [Github](#)

Tech Stack**:** HTML5, CSS3, JavaScript, API

- Built a responsive weather dashboard that fetches real-time weather data from a public API.
- Implemented dynamic display of temperature, humidity, wind speed, and weather icons.
- Enabled city search functionality with error handling for invalid inputs.
- Focused on clean UI, reusable CSS, and responsive design for seamless experience across devices.

3. E-commerce Website | [Live Link](#) | [Github](#)

Tech Stack**:** HTML5, CSS3, JavaScript

- Developed a fully responsive e-commerce website with product listings, search, and dynamic cart functionality.
- Implemented interactive product cards, filtering, and price calculations using JavaScript.
- Designed responsive layouts with CSS Grid and Flexbox for seamless experience across devices.
- Focused on clean, reusable CSS and a professional, user-friendly interface.

Certifications

Full Stack Development with Django -Itvedant
